Support our mission to preserve and share Canada's automotive heritage.

The Canadian Automotive Museum opened in 1963 to promote the history of the automobile in Canada. The museum is an incorporated charitable, not-for-profit institution with a mission to tell the Canadian story of the automobile and its impact in Canada through the preservation, exhibition, and interpretation of Canadian vehicles and related reference materials.

The museum maintains a collection of more than 80 historic vehicles, exhibited in a 25,000 sq. ft. facility in downtown Oshawa, Ontario. In addition to vehicles, the museum is home to the Glenn H. Baechler Canadian Automotive Research (C.A.R.) Library. The museum is open to the public year-round and hosts fun and educational programs for all-ages.
